Learning and Technology Solutions for K–12 Education

Infobase LEARNING CLOUD

NEW!

Equip your educators and students with the tools they need to thrive!

Find courses and skill growth that meet learning and industry standards.

What Is the Infobase Learning Cloud?

The Infobase Learning Cloud provides a best-in-class outcome-based learning framework that reinforces skill and leadership development and lasting learning outcomes.

Dive into more than 80,000 microlearning videos and more than 800 professionally developed courses—or create your own—designed to help you master new skills, practice concepts, share ideas, and assess learning.

Educators Can Earn Professional Development Credit, Get Valuable Training, Utilize Their Own Content, and Assess Learning

Beyond its robust content library, Infobase's delivery platform provides the ability to upload courses an institution has already built in order to meet certain initiatives, including adding custom assessments. This new learning delivery platform offers a complete framework where users can create, manage, distribute, assess, credential, and advance through their careers.

How does the framework help users retain what they learn?

Courses are only as good as the impact they have on your staff and students. Infobase Learning Cloud's framework both enhances and personalizes online learning using four proven methods:

LEARN IT. *Learn from Best Practices.*
Professional learning on highly relevant topics.

DO IT. *Apply Learning to Life.*
Activities to apply learning to life—and the classroom.

SHARE IT. *Connect and Get Feedback.*
Collaborative tools to learn from other educators.

PROVE IT. *Demonstrate Learning.*
Assessments and resources to monitor progress.

More than 800 courses, including thousands of videos across 50+ topics

- ✔ Use our professionally developed courses
- ✔ Adapt the courses for local context
- ✔ Create or customize your own courses and assessments
