# Streamable Learning INTERACTIVE LIVESTREAMS

## Enhance Your Curriculum with Interactive Virtual Field Trips

Introduce your classrooms to an endless world of interactive, educational livestreams that equitably connect districts and schools to subject-matter experts and organizations from around the world with *Streamable Learning*!

## Open Doors to Authentic Learning Experiences

- Create equitable opportunities for life experiences across the classroom
- Improve student outcomes
- Aligned to U.S. state and Common Core standards
- Classrooms can directly interact with subject-matter experts through live chats!

## Stop Watching. Start Engaging.

*Streamable Learning* is accessible via a *Learn360* subscription, so educators have one point of access and can pair *Learn360* assets with livestreams to create memorable and meaningful learning experiences. Special bundle pricing is available. *Learn360* and *Streamable Learning* are also available separately. Contact us for more info!

Whether your classroom is in-person, fully remote, or hybrid, *Streamable Learning* provides curriculum-focused experiences that help students connect what they learn in class with what is happening out in the world.

## OH, THE PLACES YOU'LL GO!

# Streamable Learning

**INTERACTIVE  
LIVESTREAMS**

**Streamable Learning Makes Virtual Field Trips Fun, Easy, Affordable, and Interactive for ALL Students**

*Streamable Learning* is the only live and interactive streaming service on the market today that also offers an extensive library of past recordings—more than 1,000!

These virtual live events create an immersive experience and help administrators and educators:

- **Control expenses**
- **Ensure student safety**
- **Eliminate complicated logistics**
- **Save educator and student time**
- **Allow all students to participate equally**
- **Allow students who couldn't attend the livestream to watch the recording**
- **Reinforce learning by referencing the recording of an event**

**Easy to Adopt, Easy to Use**
