

ENHANCE IN-CLASS INSTRUCTION

8 Benefits of Digital Resources to Support Students and Teachers

How can school leaders best support students and teachers? No magic fix exists, of course. But a vast body of research shows that one answer lies in intelligently deploying digital resources.

Here are 8 ways digital resources can benefit both students and teachers.

BENEFITS FOR STUDENTS

- 1 Using digital resources to supplement traditional classroom instruction produces **better student outcomes**
- 2 Digital resources **combat learning loss** and meet students where they are
- 3 Digital resources **increase student engagement**
- 4 Digital resources help students have **meaningful in-class experiences**

BENEFITS FOR TEACHERS

- 1 Digital resources protect teachers' most valuable commodity: **their time**
- 2 Digital resources don't detract from what teachers love doing; **they enhance it**
- 3 Digital resources allow teachers to **tailor assignments** to students' needs
- 4 Digital resources allow teachers to appeal to **different interests and learning styles**

Does your school or district intelligently use digital resources to benefit both teachers and students?
