Classroom Video On Demand

Engaging, age-appropriate educational
videos for secondary students

Classroom Video On Demand is a cross-curricular video solution with 31,000+ titles expertly curated to support today's curricula as well as education tools to enhance secondary learning, support AP/honors courses, and empower student success.

Why it's great

Integrate information literacy across subjects

Integrate inquiry and critical thinking across the curriculum. Introduce new concepts, explore various perspectives, and connect learning to real world decision-making.

Inspire lifelong learning

Strengthen understanding with cross-curricular connections and real-world applications that help students think critically and apply information responsibly—core components of information literacy.

Strengthen and support research best practices

Equip staff and students with the skills to find, evaluate, and use information effectively and ethically. Build research habits and strengthen communication and decision-making skills.

> **Our teachers and students find it easy to use and an invaluable reference. We have had other streaming video sites, but none that are as easy to use and contain the quality video of... Classroom Video On Demand."**
>
> - Lillian Serafine, former Assistant Director, The Taft School Library

Teaching, learning, and access tools

Organize Your Projects

Find, save, and organize your materials for easy reference when working on a project, homework, or research task.

Curate Content

Discover, save, organize, and share related materials and playlists with your teaching team or students, or when collaborating.

Topical Activities

Connect your course objectives and activities to current events. Curated topics are highlighted by our editorial teams on the homepage and in featured resources.

Authentication Services

SSO options connect teachers and students more directly to achieve learning outcomes.

PBS   BBC   A+E GLOBAL MEDIA.   NATIONAL GEOGRAPHIC   abcNEWS   NOVA

Build your library

Master Curriculum

Classroom Video On Demand Master Curriculum is a comprehensive video library designed to enhance critical thinking skills across the secondary school curriculum. Foster evidence-based reasoning across all subject areas with standards-aligned videos, educator guides, assessment tools, and accessibility features. Supplement high school and AP course instruction with curated resources designed to strengthen and empower student-driven inquiry.

Add-ons

Career & Technical Education

Career and Technical Education is a comprehensive video library designed to develop high school career and technical literacy. Discover curated resources on ever-evolving job sectors, real-world leaders in emerging fields, and study skill materials to enhance college and career readiness. Prepare for the future with videos on career guidance, technical skills, vocational training pathways, interview tips, and résumé resources.

Artificial Intelligence

Artificial Intelligence (AI) is an educational video library that introduces and provides a deeper understanding of the newest technological advances in AI. Build confidence and enhance AI literacy with age-appropriate resources. Curated to support practical classroom applications, this unique collection empowers students to create with AI and strengthens digital literacy both for novice and experienced learners.

World Cinema

World Cinema connects educators and students with international films from around the world. Foster critical thinking and cultural literacy by integrating international perspectives and geographical context into your instruction. Celebrate global connectedness and the power of multicultural storytelling with titles spanning Africa, Asia, Europe, Latin America, the Caribbean, and the Middle East.
