

Films On Demand

Curated videos for campus-wide learning
and informed, critical engagement

Films On Demand is an easy-to-use video solution with 40,000+ educational videos, expertly curated to support today's curricula. With content across 700+ topics and 30 core subjects, it's an essential tool for every department.

Why it's great

Seamless integration

Easily add videos to courses through your LMS, with closed captions, searchable transcripts, and playlists designed to support comprehension, source evaluation, and critical engagement.

Campus-wide content

- Enhance teaching and learning
- across all departments with a
- rich, curated video library that
- promotes media literacy,
- research skills, and
- cross-disciplinary inquiry.

Unlimited access

- One flat price; no hidden fees.
- Support equitable access to
- credible, high-quality content
- anytime on any device and
- empower students to explore,
- analyze, and apply information
- independently.

Faculty love the user-friendly searching and broad subject coverage. It's a must-have resource"

Danette R. Pachtner, Librarian for Film, Video & Digital Media, Duke University

Teaching, learning, and access tools

Organize Your Projects

Find, save, and organize your materials for easy reference when working on a project, class, or research task.

Curate Playlists

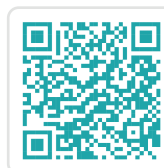

Discover, save, organize, and share related materials and playlists with your peer teaching team, students or when collaborating.

Topical Activities

Connect your course objectives and activities to current events. Curated topics are highlighted by our editorial teams on the homepage and in featured resources.

Classroom Integration

LTI 1.3 converts Infobase content into core curriculum and learning experiences.

Trusted content providers include

Build your library

Master Academic

Films On Demand Master Academic is a comprehensive, instruction-focused streaming media subscription that offers every student and academic department on campus unlimited access to the most essential videos for their field of study. Help students in every discipline develop their media literacy and research skills, and enhance cross-disciplinary inquiry with exceptional content from the world's top producers.

Additional solutions

Allied Health

Allied Health is a video library that prepares students for practice across a diverse range of healthcare settings. With programs from trusted producers such as Elsevier, NEVCO, and Medivision, students can feel confident navigating their information needs, and doing research ethically and with rigor.

Artificial Intelligence (AI)

Artificial Intelligence (AI) provides sought-after resources to upskill educators and students for the rapidly changing technology landscape. Offering practical programs to help students develop critical research and problem-solving skills, it also includes tools to help educators leverage AI to provide world-class instruction.

Career & Technical Education

Career and Technical Education offers career guidance and technical skills-focused videos to support college readiness and vocational training pathways by developing students' media and technical literacy. Discover resources on ever-evolving careers, real-world leaders in emerging fields, and study skill materials to prepare for the future.

Nursing

Nursing is a professionally curated streaming resource that helps students prepare for the NCLEX exam. Find foundational content covering all areas of practice, professional development, emerging areas, and more. Arm students with the practical and research literacy skills needed to succeed in their future careers.

Physical Therapy

Physical Therapy brings together videos on core topics such as movement science and different therapeutic interventions like massage and sports medicine. Concepts and techniques come to life helping students to learn and practice vital skills and enhance inquiry and critical-thinking skills.

World Cinema

World Cinema connects educators and students with classic and groundbreaking films from around the world. Support students and strengthen their cultural literacy in a range of classes from political science, history, world languages, film studies, and more.
