

4 GROUPS WHO BENEFIT FROM
INFORMATION LITERACY
HEALTH SCIENCE

INFORMATION LITERACY INSTRUCTION THROUGH THE LENS OF HEALTH SCIENCE

LIBRARIANS

HEALTH SCIENCE-SPECIFIC LIBRARIANS
AND GENERAL LIBRARIANS

Will find detailed IL instruction told through the lens of health science, allowing them to meet the unique, subject-specific needs of their students.

HEALTH SCIENCE / NURSING INSTRUCTORS

Will be able to flip the classroom for students to build IL skills at home while allowing themselves to spend class time teaching their subject matter.

TRADITIONAL STUDENTS

Will find instructional content supporting different learning styles with a combination of infographics, text, video, and images presenting the information they need.

RETURNING STUDENTS

Will find instruction on current academic research practices and materials to build information evaluation skills.

IF YOU'RE LOOKING FOR...

Fundamentals of IL through the health science lens:

Check out the following:

- Scientific Method for Health Science Students
- Search Strategy for Health Information
- And more!

IF YOU'RE LOOKING FOR...

Foundations of evidence-based practice:

Check out the following:

- Introduction to Evidence-Based Practice
- Using the Hierarchy of Evidence
- And more!

IF YOU'RE LOOKING FOR...

Specific health-related topics:

Check out the following:

- Complementary and Alternative Medicine
- Consumer Health Information
- And more!

IF YOU'RE LOOKING FOR...

Introductions to research & resources:

Check out the following:

- Reading a Scholarly Article
- Research Retrieval and Organization
- And more!
