

Middle-High School eBooks

Support learning and literacy at every level

Infobase Middle-High School eBooks is a robust, all-in-one digital resource that provides schools and districts with a trusted and expansive collection of 6,000+ non-fiction eBooks. Built to enhance learning, support curriculum goals, and provide solid foundations for developing information literacy skills, this collection's classroom-ready content helps diverse learners develop vital research and critical thinking skills.

Why it's great

Promotes responsible scholarship

Unlimited, simultaneous access to thousands of carefully selected books supporting the K-12 curriculum with search and citation tools to help students ethically engage with, use, and credit their research.

Credible content for all research strategies

Authoritative, trusted content provides a reliable foundation for evaluating information critically, developing methodical research strategies, and learning to identify credible sources to support academic success.

Supports diverse learning

Thoughtfully curated books and tools support a variety of learning styles, help students explore different research paths and critically assess information, and support a range of projects.

I love Infobase products and the support behind the products!"

- Karenn Ressa, Green Vale School

Teaching, learning, and accessibility tools

Citation Tool

Move from information seeking to communicating by extracting the necessary resource citation for use in a variety of citation managers, with dynamic citations available in MLA, Chicago, APA, and Harvard formats.

Robust Search

A powerful search feature with filters enables users to search all titles in your Infobase collection and presents results at the book and chapter level for deeper inquiry.

Search By Standards

Correlated to Common Core, state, national, International Baccalaureate Organization, C3 Framework for Social Studies, College Board AP, national STEM, and Next Generation Science standards.

Accessibility and Integration

Infobase eBooks are WCAG 2.0-compliant and support Google sign-on as well as sharing to Google Classroom and saving to Google Drive.
