

Learn360

Curated multimedia resources for
K-12 educators

Learn360 is a K-12 multimedia solution that features 38,000+ curated videos, along with educator guides and tools that help students build essential research skills, strengthen critical thinking, and foster lifelong digital discernment habits.

Why it's great

Comprehensive coverage

From math to world languages, incorporate critical thinking and inspire inquiry-based learning with various perspectives across every subject, grade, and topic.

Interactive by design

Strengthen problem-solving and communication skills with multimedia features like games, quizzes, and animations.

Inquiry-driven research tools

Incorporate research best practices with intuitive tools to search, find, evaluate, and use information effectively, including ready-to-use educator guides.

Our educators use Learn360 to embed videos in Schoology that align with lesson plans, support whole-class viewings, and spark small-group discussions.”
