## Teaching, learning, and access tools

### Lesson Plan Builder

Quickly create personalized lesson plans for key math and literacy skills. Each plan includes an introductory activity, guided practice, independent practice for three ability levels, and an assessment.

### Make & Print Tools

Create your own flash cards, desk tags, spelling lists, and bingo boards in various sizes, with customized art and text. Print awards, create newsletters, make checklists, and more.

### New Monthly Content

Every month, new activities and worksheets are added for each grade, featuring skills students need at that time of the year. Handy, seasonal forms to support effective classroom management are also included.
