

The World Almanac® for Kids Elementary

Engage young learners with K-5 content that builds literacy, digital, and research skills through fun passages, videos, games, and ready-to-use teacher support.

The World Almanac for Kids Elementary is a K-5th grade resource that builds literacy confidence through reading passages with reinforcing images, videos, projects, and games on a large variety of topics. Develop digital and early research skills with intuitive features and age-appropriate design. Grab-and-go teacher support material is easy to find and implement for student advancement.

Why it's great

Grow big ideas

Colorful topic pages pair easy-to-read text with videos, pictures, maps, and visuals so every kind of learner can explore and build on what they know.

Take learning further

Go beyond the usual topics with expanded content in science, health, money, community, careers, and more—all made exciting and friendly for young explorers.

Develop digital literacy & search skills

Students explore age-appropriate topics while learning how to ask questions and practice online searching.

Classroom and learning tools

Content Recommendations

Specific material related to the resource you are viewing is recommended for broader or deeper exploration.

Printable Resources

An expanded Teacher Resources section contains hundreds of printer-ready handouts for every lesson.

Search by Standards

Content is correlated to all major standards, making it easy to find the right material.
