

# The World Almanac® for Kids

Curriculum-aligned student-friendly tools  
and teacher-ready resources that advance learning

**The World Almanac for Kids** is a 6-8th grade cross-curricular multimedia resource that builds research confidence through fun exploration of engaging content, videos, and games. Capitalize on curiosity and reinforce digital literacy with student-friendly tools and teacher-ready resources that advance learning.

## Why it's great

### Build background knowledge

Diverse topic centers combine text with videos, infographics, maps, and more to support multimodal, differentiated learning.

### Spark curiosity

Go beyond the curriculum with engaging content in STEM, health, social skills, financial literacy, the arts, and more.

### Boost research & digital literacy

Explore age-appropriate topics while strengthening online research and critical evaluation skills.

**‘Entertaining’ isn’t usually used for reference works, but it fits The World Almanac for Kids—a fun, trusted resource that supports homework, projects, and research skills.”**
